Education

Instituto Tecnológico de Zacatepec (TecNM) Mexico
Bachelor's Degree in Computer Systems Engineering 2020 - 2025
Specialization in Data Science for Decision-Making

Experience

Instituto Nacional de Electricidad y Energías Limpias (INEEL) Cuernavaca, Mexico
Research Intern Mar 2025 - Jun 2025

- Built a Python and Streamlit chatbot that queries energy-sector data in SQL Server and returns natural-language answers with tables and charts.
- Preprocessed historical CSV datasets and consolidated them into SQL Server for analysis.
- Evaluated Spanish-capable large language models, ran Llama 3 locally with Ollama, and developed prompts with energy-sector context and examples.

CBTis No. 223 Zacatepec, Mexico
Database Administrator Aug 2024 - Dec 2024

- Developed a web system to manage student community service and internship records, integrating MySQL with document generation using QuestPDF.
- Automated administrative document workflows and wrote a user manual covering system features.

CENIDET Science and Technology Summer Program Remote
Data Science Research Project Jun 2024 - Jul 2024

- Developed a PyTorch model to identify tourist landmarks in photographs, using image preprocessing and data augmentation with torchvision to prepare training data.
- Presented the project at the first CENIDET Science and Technology Summer congress.

Selected Projects

NFL Draft Prediction: Predicted whether NFL Combine prospects would be drafted; achieved a best competition score of 0.84412 ROC-AUC.

Telecom Customer Churn: Proposed monthly churn risk scoring and A/B testing for a customer retention pilot as a GCI World 2026 course project.

Technical Skills

Data and machine learning: Python, SQL, pandas, NumPy, scikit-learn, PyTorch, Matplotlib, Seaborn

Generative AI and applications: Llama 3, Ollama, prompt engineering, Streamlit, Flask, Gradio

Databases and big data: SQL Server, MySQL, PostgreSQL, MongoDB, PySpark, Hadoop, Databricks

Training and Languages

ONE Tech Foundation G9 - Data Science | Oracle and Alura Latam | 2026
GCI World 2026 | Online course completed; certificate received Aug 2026
English: C1 (CENNI certification)
